### Statement:

Exactly a year ago in February 2020 my energy was soaring as I was preparing for a one person exhibition at the Noho M55 Gallery. Boom! We were quarantined because of the Covid Virus and my show was cancelled.

As an artist I am fortunate to have an at home studio. This quarantine has been a gift of uninterrupted time. Having lived in Southern California for many years I bring to my work the bright light and luminous colors of the California sun.

I am a multimedia artist working in a variety of media to define a figurative idiom. During the time of quarantine I took the opportunity to explore more abstract and non representational avenues.

I have continued to exhibit my work via online venues and the Hammond Museum.
